

Brad Abare
Bastards with Bibles

Who are we? What's our identity?

What does it mean to lose our soul?

1. **drift** - we forget about what really matters.
2. **fragmentation**
3. **narcissism** - where we think only we matter
4. **conflict** - can't agree on what really matters

it stems from our deep down desire to be known (personally and ecclesiastically)

identity is no longer found at who we are at the core- who god made us. it seems to have come from brands, etc

ORGANIZATION AS SOLE PROVIDER

comes from:

1. **globalization** - we are all connected
2. **options** - apple is great b/c they don't give us a billion options: macbook, ipod, etc
3. **branding** -
4. **disruption** - we prefer shortcuts and convenience

What it looks like to have a soul:

1. **Loyalty** - we are committed to the same goals, on the same team
2. **Identification** - we belong! people are good together, we matter
3. **Trust** - we lack fear; we know what matters and we're having fun together
4. **Recognition** - we are noticed;

How to find our soul

1. figure out your roots

We are a _____
Serving _____
Doing _____
To accomplish _____
